

Accessibility Statement

Effective Date: [08/01/2025]

Last Updated: [10/07/2025]

At **No Gifts Please, Inc.**, we believe that every family, friend, and giver should be able to celebrate meaningfully — and that includes being able to use our website with ease.

We are committed to ensuring that **NoGiftsPlease.com** is accessible to everyone, regardless of ability, device, or assistive technology.

1. Our Commitment

We aim to comply with the **Web Content Accessibility Guidelines (WCAG) 2.1 Level AA**, which set the global standard for accessible digital content.

This means:

- Pages are designed to be **navigable by screen readers**.
- Text has sufficient **color contrast** and can be resized.
- Buttons and links are **keyboard-accessible**.
- Images include **alternative text**.
- Forms and interactive elements are labeled clearly.

We continually test our site and update features to improve accessibility.

2. Supported Browsers & Devices

Our site works best on modern browsers, including:

- Google Chrome
- Safari
- Firefox
- Microsoft Edge

We optimize for desktop, tablet, and mobile screens. Some custom features (like registry dashboards or chat setup) may perform differently on older browsers.

3. Accessibility Tools

We regularly evaluate NoGiftsPlease.com using both manual and automated tools, including:

- **WAVE Accessibility Checker**
- **axe DevTools**
- **VoiceOver / NVDA screen readers**

We also review content formatting and font readability to ensure consistency across updates and third-party integrations (Framer, Softr, Airtable, and Stripe).

4. Continuous Improvement

Accessibility is not a one-time project — it's an ongoing commitment.

As we release new features (like registry customization, printable cards, and partner experiences), we test each update for accessibility compliance and usability.

If we ever fall short, we want to know.

5. Feedback & Assistance

If you experience difficulty accessing any part of the site or need help using a feature, please let us know right away.

6. Third-Party Content

Some parts of the platform integrate third-party tools (e.g., Stripe, Softr, Framer, Airtable, or PDFMonkey). While we do not control the accessibility of these external services, we choose partners who share our commitment to inclusive design and compliance.

7. Accessibility Statement Updates
